34" (Diagonal) TruFlat™ 16x9
HDTV Monitor w/ Integrated DVD
(Optional Clip'On and Stand^{1^})

Features

Integrated DVD Player

TruFlat™

Progressive Scan

Virtual Dolby²

Built-in Sub-Woofer and Sub-Woofer Output

Dual HD Component Inputs (SYNCROSCAN™)

DVI Input with HDCP - New Connectivity

Benefits

Built-in DVD player offers maximum convenience and ease of use. The latest in Home Entertainment Technology without the need for additional wires/cables.

The TruFlat™ tube is designed to provide a distortion-free viewing experience ideal for HDTV, digital broadcast and emerging applications.

Digitally combines two fields of video into one high-resolution image frame. Creating a smooth film-like appearance.

Virtual Dolby² uses the TV's left & right speakers to simulate surround sound and create a "live performance" experience.

Use built-in sub-woofer or connect a powered sub-woofer directly to the TV without the need for a separate audio receiver.

Auto-adjusting inputs allow a wide array of component compatible equipment (e.g. DVD/ Satellite) to be connected simultaneously. Helps simplify hook-up process.

DVI-HDTV allows transmission of (uncompressed digital) video signals from a set-top box to a digital TV. DVI delivers the purest digital transmission available today.
